

SERVICE LEVEL AGREEMENT (SLA)

This Service Level Agreement covers server Hardware & Operating Systems, Power, Bandwidth, Network and Support.

1. Coverage

CoreSpace, Inc.'s commitment to uptime performance applies to any CoreSpace, Inc. client in good financial standing with CoreSpace, Inc. at the time of a service outage. Note CoreSpace, Inc.'s system of monitoring shall be the exclusive monitoring system used to verify SLA breaches or downtime. No third-party monitoring system will be recognized.

2. Service Level Agreement & Specifications

Network downtime (unavailability) is defined as 100% packet loss from CoreSpace, Inc. to its backbone providers. Downtime is measured past 10 minutes after notification of network failure via CoreSpace, Inc.'s online ticketing system. If the ticketing system itself is unreachable, the ticket must be started by calling the CoreSpace, Inc. Technical Support Department. CoreSpace, Inc.'s administrators will determine the end of the downtime by a trace-route to the customer's machine from outside the CoreSpace, Inc. network.

3. Credits

Customers may be entitled to credits as calculated below and as measured 24-hours a day in a calendar month, with the maximum credit not to exceed fifty percent (50%) of the monthly recurring revenue for the affected month. Any credit is only for the service provided that was interrupted. A monthly charge for an additional hard drive, for example, would not be included in the monthly service charge for purposes of determining the credit to be applied for a power failure.

Minimum Downtime per Instance:	Monthly Instances:	Total Account Credit:
60-Minutes of Unavailability	Up to 4 Instances	10%
60-Minutes of Unavailability	5 or More Instances	50%

In order to receive a credit on your account, a request for such credit must be made within three (3) calendar days of the experienced downtime. Credits are requested by sending in a support ticket to Billing (Billing@CoreSpace.com). Approved credits will usually be applied within sixty (60) days of your credit request. Credit to your account shall be your sole and exclusive remedy in the event of an outage.

4. Restrictions

Customer shall not receive any credits under this SLA in connection with any failure or deficiency of website availability caused by or associated with:

- a. Circumstances beyond CoreSpace, Inc.'s reasonable control, including, without limitation, acts of any governmental body, war, acts of terrorism, insurrection, sabotage, armed conflict, embargo, fire, flood, strike or other labor disturbance, interruption of or delay in transportation, unavailability of or interruption or delay in telecommunications or third party services (including bandwidth providers), virus attacks or hackers, DDoS or IPS events, failure of third party software or inability to obtain raw materials, supplies, or power used in or equipment needed for provision of this SLA;
- b. Failure of bandwidth providers to provide Internet connectivity to the CoreSpace, Inc. Network, unless such failure is caused solely by CoreSpace, Inc.;
- c. Scheduled maintenance and emergency maintenance and upgrades by CoreSpace or any CoreSpace third party providers;
- d. DNS issues outside the direct control of CoreSpace, Inc.;
- e. Issues with FTP, POP, IMAP, or SMTP customer access;
- f. False SLA breaches reported as a result of outages or errors of any report system;
- g. Acts or omissions of Customer or its agents, employees, contractors or others engaged or authorized by Customer, including, without limitation, custom scripting or coding (e.g., CGI, Perl, HTML, ASP, etc.), any negligence, willful misconduct, or use of the Services in breach of CoreSpace, Inc.'s Terms and Conditions and Acceptable Use Policy;
- h. E-mail or webmail delivery and transmission;
- i. DNS (Domain Name Server) Propagation;

- j. Outages elsewhere on the Internet that hinder access to your account. CoreSpace, Inc. is not responsible for browser or DNS caching that may make your site appear inaccessible when others can still access it. CoreSpace, Inc. will guarantee only those areas considered under the control of CoreSpace, Inc. and related to a CoreSpace known issue.
- k. If a customer changes login credentials on a server and CoreSpace, Inc. cannot monitor access, then this SLA is null and void and no credits will be applied for any reason.

5. Latency Commitment

CoreSpace, Inc.'s goal is to keep Average Round-Trip Latency on the CoreSpace, Inc. Network to 60 milliseconds or less. "Average Round-Trip Latency", with respect to a given month, means the average time required for round-trip packet transfers between Selected POPs on the CoreSpace, Inc. Network during such month, as measured by CoreSpace, Inc. If Average Round-Trip Latency on the CoreSpace, Inc. Network for a calendar month exceeds 120 milliseconds, then upon Customer's request (in accordance with the procedure set forth), CoreSpace, Inc. will issue a credit.

6. Packet Loss Commitment

CoreSpace, Inc.'s goal is to keep Average Packet Loss on the CoreSpace, Inc. Network to 1% or less. "Average Packet Loss", with respect to a given month, means the average percentage of IP packets transmitted on the CoreSpace, Inc. Network during such month that are not successfully delivered, as measured by CoreSpace, Inc. If Customer's Average Packet Loss exceeds 1% during a calendar month, then upon Customer's request (in accordance with the procedure set forth), CoreSpace, Inc. will issue a credit.

7. Server Environmental/Critical Systems Commitment

With respect to environmental/critical systems, including power and HVAC (72 degrees +/-5) infrastructure including , CoreSpace, Inc. is committed to making those critical systems available 100% of the time in a given month (excluding scheduled maintenance). Should downtime occur, CoreSpace, Inc. will credit the Customer's accounts as outlined above in the "credits" section. Critical systems should be considered to include functioning of all power and HVAC infrastructure including UPS equipment and cabling. Power supplies of individual servers are not included. Critical systems downtime should be considered to exist when a Customer's server is shut down due to power or heat problems and a ticket has been opened for the incident in the CoreSpace, Inc. ticket tracking system. A system ticket must be timely opened by Customer in order to request a credit. Critical System downtime is measured from the time the ticket is opened regarding server downtime to the time the problem is resolved and the server comes back on line.

8. Fee Definitions

The "Monthly Service Charge" paid by Customer for standard server packages, includes the use of the server, the use of electricity to the extent provided to the Customer without additional charge, and up to the amount of data transfer allowed each month without additional charge. The monthly service charge for purposes of the SLA credit excludes all other fees that might be charged to the Customer, including, without limitation, charges relating to managed services, incremental bandwidth usage and fees for electricity, extra IP addresses, RAM, or hard drives beyond that which are available without additional charge under CoreSpace, Inc.'s standard rates. This list of potentially excluded fees is offered solely for purposes of illustration and not by way of limitation.

9. End of Life

From time to time, CoreSpace, Inc. may find it necessary to discontinue supporting products and/or services for a number of reasons, including but not limited to product line enhancements, upgrades and third party discontinuances of products or services. When a product or service offered or supported by CoreSpace, Inc. reaches its end of life (EOL), CoreSpace, Inc. will provide Customer an initial EOL notification, End of Support (EOS) dates, and other key information pertaining to the product or service. CoreSpace, Inc.'s cessation of support for a product or service under this provision shall not be considered a breach of this SLA or any other agreement.
